Missionaries to the people in Korea
and Beyond

A look back at
April-June 2022

Still in America... We had planned to be back the end of June, but due to travel paperwork issues we will not be able to return yet. We are trusting the Lord in these matters. For months I've been telling churches that "we should be back in Korea by now," but as we are recognizing what God has done, we see we are right where He wants us to be.

We have had opportunity after opportunity to be a part of what we call "divine appointments" possibly more than any other time back in the States. It amazes us that so many are interested/encouraged in what God is doing around the world. We have been a part of more people making significant decisions to follow after Christ than ever before. More depth, more commitment and more retention than ever.

Simply by challenging people that truth makes free and that there is hope as the Holy Spirit will lead and guide into all truth. We recognize that "sin is sin" however it has been a theme for several months to talk about HOPE to people with deep dark sin issues and see a glimpse of hope after a few hours in God's Word. We are curious as to where this will all lead... who knows...BUT God.

We praise the Lord for a contact in Chicago at the Korean Consulate who really made things happen. Way to much for this update but an "only God" situation. We were days from loosing our visa status but at this point things look very good to retain our Mission Status.

We should be able to buy tickets to return in the next couple months...please pray for this transition
