Support Memo: Joe Lemon-Korea

Please Pray:

- Huge cost of travel while on furlough
- See souls saved and people make decisions along the way
- Abigail—In Korea helping a family with the birth of their 7th child.
- Joseph—Persuing an Engineering Degree to be used for the ministry.
- Housing situation in Korea...a constant need
- Needed support

Furlough continues!

We have just returned to the "lower 48" from Alaska and truly had a wonderful time reacquainting ourselves with our home church in Anchorage. Camp time has always been a highlight for our family since our first in 1999. We have been in 25 states now and have had a great time in many churches. **We ask that you all pray, as we do, for safety.** In this time of travel we have witnessed several accidents to include a recent terrible car fire. God has blessed us with tremendous safety over the years for which we are grateful.

Our "Beyond Ministry" still continues!

As we have traveled and seen people face to face, many have asked concerning this outreach. It has been nice to be able to speak freely as to the real need, but also share the great victories thus far. We are looking forward to great opportunities in the future when we return. Again, there is a constant need...**if the Lord should direct you to help** with this, please contact me for more details.

Sowing as we go...

We have and currently are praying for decisions as we have opportunity to preach in many churches. God has moved in several services with people making many decisions. However, we have noticed that few are surrendering to missions or any type of full-time service these days. Please pray that there would be those that would surrender...God is calling.

Thank you all once again for standing by our side through your prayer and support here on the furlough trail,

Grateful to serve
Joe Lemon and family

Picture Update.

July-September 2018

Please enjoy a few pictures to show the day-to-day life of our family. Along with the many church services, sowing-as-we-go and other ministry opportunities, we try to get our family as many American experiences as possible.

We don't post all the problems of travel but I did think the firewood spring shackle fix was pretty impressive

Here is the real fix though

We were able to travel to an Alaskan native village with Brother John Pinnix and Remote Alaskan Missions. My wife used to fly in to this village with her Dad when she was a teenager.

From zero drivers to 2 with temps and two more with full license

Picture Update x2

Children enjoyed processing 90 fresh salmon as we used to do in Alaska when we lived there.

Installing Air Suspension for safe travel.
Thanks Boys!!

Pray for "Murad" from Morocco. Really interesting story...would love to sit down and tell you all some day.

The reason why one should keep their eyes up when out in Alaska.
(black bear track)
